After gaining an understanding of your targets and business activities, we can provide the efficient tax advice which you need to build the value of your business and protect your assets.

Businesses face increasing pressure of even more rules and regulations, with tax complexities often consuming a large amount of management time and effort. Your company gets practical advice in order to resolve issues arising in respect of the following contracts: international, land and immovable properties (purchase, rent, trust deed), leasing, storage, insurance, intellectual property, procurement, supply and commission, construction, partnership.

Together with our partners and co-workers, we assist companies to work effectively in the Russian market, assisting western shareholders in particular in such areas as financial transparency, protection of equity and corporate governance generally.
